

ENHANCING THE WORLD'S MOST PRECIOUS RESOURCE IN YOUR SWIMMING POOL

- ✓ Eco-Friendly
- ✓ Chemical & Salt Free
- ✓ No Moving Parts
- ✓ Non-Sacrificial
- ✓ No Power Source Required
- ✓ Maintenance Free
- ✓ Lifetime Warranty*
- ✓ Simple Self Installation

*Refer to website for more information

LEFT UNTREATED MINERALS IN WATER WILL CAUSE PROBLEMS IN YOUR SWIMMING POOL

- ⚠ Salts and scale deposit on chlorinator cells reducing the capacity of the cell to maintain the required level of chlorine production
- ⚠ Excess salt and scale build up causing the cell plates to over heat leading to premature failure
- ⚠ Hard to remove scum lines on pool surfaces
- ⚠ Scale builds up on the painted pool surfaces giving them a milky look
- ⚠ Pool filters do not back wash thoroughly
- ⚠ Unexpected breakdowns of pumps and chlorinators result in costly repairs or replacement

ARE YOU AT RISK?

Signs to look out for:

- ⚠ White spots where water has dried such as Shower screens, taps & faucets, cars, boats
- ⚠ Poor lather / low foam production from soaps and detergents
- ⚠ Dry hair and skin irritations
- ⚠ Decreased performance and increased running costs of appliances and equipment
- ⚠ Decreased performance and increased maintenance costs of evaporative air conditioners, hot water systems and appliances
- ⚠ Increased chemical usage in swimming pools and cooling towers
- ⚠ White 'chalky' appearance on surfaces
- ⚠ Premature failure of pumps, heating elements and related equipment
- ⚠ Calcification inside pipes, faucets, hot water systems, heating elements and chlorinator cells

THE SOLUTION!

A Softerwater Conditioner

Specifications:

Thread: 2" BSPT Male
Length: 210mm
Housing: 316SS
Flow Range: 200 - 450l/min

- ✓ Protection for pumps, chlorinator cells, filters, pipes and pool surfaces
- ✓ Softer water to swim in
- ✓ Turbulence generated through the Pool 350 gives a thorough mix of chemicals and water improving efficacy
- ✓ Scum lines are more easily wiped away
- ✓ Backwash is more thorough
- ✓ Minerals don't deposit on the pools painted surfaces
- ✓ Better efficiency of the pump, filtration and chlorination systems over its lifespan
- ✓ Simple self installation

A SIMPLIFIED LOOK AT OUR ADVANCED TECHNOLOGY

STANDARD WATER SYSTEM

Scale-causing minerals have a high electrical charge, repel each other and 'stick' to pipes and equipment causing costly hard water problems.

WITH IGS WATER CONDITIONER

The water conditioner alloy produces a turbulent mineral-attracting galvanic action reducing the electrical charge of minerals.

Non-sticking nano sized colloids are formed and flow through the system in suspension significantly reducing hard water problems.

APPLICATIONS

Showers

Washing Machines & Dishwashers

Swimming Pools

Residential, Caravan & RV

Cooling Towers

Irrigation

Drill Rigs

Commercial

IGS Asia Pacific,
Ground floor 470 St Kilda Rd
Melbourne, VIC 3004, AUS
